

## Float steam trap type SI61

### Application and function

Float operated steam trap for drainage and deaeration of steam lines and all kinds of heat exchangers, including those for superheated steam not above 90 K up to saturation vapour temperature, automatic bleeding system, maximum operating safety, no loss of live steam.

### Technical basic equipment

- Steam trap with backflow preventer, strainer and deaeration system
- Immediate drainage also by extremely high pressure and volume capacity
- Proof against dirt
- High expectancy and reliability
- Independent from pressure and temperature
- Installation in horizontal or vertical position

### Technical data

Nominal dimension	DN	G ½, G ¾, G 1, G 1 ½, G 2
All. pressure	PS [bar]	4,5 / 10 / 14
All. temperature	TS [° C]	250
Connection		G ½, G ¾, G 1, G 1 ½, G 2
Housing		GGG 40.3
Inner parts		Stainless steel

### Dimensions
