

Glass Tube Liquid Level Gauge Type 16/16, PN 10

Glass tube indicator for installation on condensation tanks, reservoirs, fire sprinkler tanks, water supply tanks etc.

connection

- male thread G 1/2", acc. DIN ISO 228
- drain plug and vent plug G 3/8 - acc. DIN 910

design

- connection piece made of stainless steel mat. 1.4571
- gaskets for glass tube made of PTFE type M902DP
- indication tube made of glass (DURAN)
(Ø 13,5 x 1,75 mm)

additional equipment

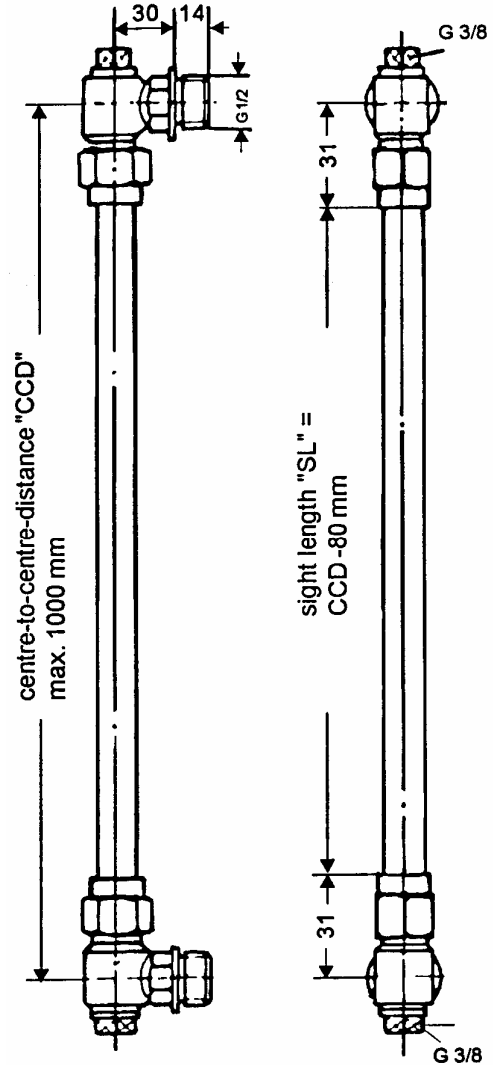

- glass protection: plexi glass cover Ø 42 mm
(product temperature: max. 80 °C)
- visual help: coloured float

dimensions

- length of glass tube = CCD - 20 mm
- length of plexi protection cover = CCD - 30 mm

max. oper. pressure	max. oper. temperature
8 bar	200 °C
10 bar	100 °C

design	connection thread
with drain- and vent-screw	G 1/2"

note

the max. centre-to-centre-distance is 1000 mm

order data

centre-to-centre-distance (CCD), additional equipment
